1243 E Prairie Brook Dr, Palatine, IL 60074

PROFILE

Have been working actively in web design and coding on the **Asp.Net** platform with **C#** language as a **full-stack software developer for 4+ years**. Have technical knowledge and skills about important **software patterns** and also have experience in **databases** such as **Ms-SQL, PI-SQL** and **Postgre-SQL**. In the **Front-End** field introduced my projects to users **with Angular, Mvvm** and **Mvc design patterns**, especially **Web-Form**.

SKILLS

- **C#**
- **Asp.Net Core**
- **Mvc**
- **Angular**
- **Web-Form**
- **Bootstrap**
- **Ms-SQL**
- **Postgre-SQL**
- **Oracle PI-SQL**

WORK EXPERIENCE

Bupa Insurance-Full-Stack Developer (November 2021 – September 2022)

Learned the business **development flow and teamwork** within the company. Processes of getting a task, developing, **communicating** with the user, **completing the requirements** of the task through **Jira**. Learned the **check-in** and **check-out** and devops processes for **Tfs** from version control systems.

Oracle PI-SQL – Ms-SQL, practiced on **DDL, DML** and **DCL** commands in Oracle PI-SQL. Learned to use ready-made functions and write **custom functions**.

Asp.Net -- Web Forms coded dropdown, input forms, checkbox, button manipulations.

Asp.Net -- Mvc coded view and controller

Full Stack Developer – Freelance (November 2020 – November 2021)

Learn and develop **software development architectures** and processes.

EDUCATION

- **Patika.dev & Bupa Insurance Full Stack Bootcamp**

November 2020 – March 2022

- **Anadolu University – Web Desing and Coding**

October 2021 – June 2023

- **Usak University – Social Sciences Institute**

September 2016 – June 2019

PROJECT

Knowledge-Sharing-Network – Blog.

- It is a blog publishing project with an admin panel.
- Built with ASP.Net 5.0 Mvc design pattern.

Human Resource Management Systems

- Built with Java Spring Boot and React framework.
- The Semantic framework was used for the design.

Rent A Car Project

- Built with C# .NET core and Angular framework.
- The Bootstrap framework was used for the design.

Note: I developed different projects during my education processes. For detailed information, you can reach my LinkedIn and GitHub accounts.

LANGUAGE

Turkish – Fluent in

Arabic – Intermediate
